I. Overview

The following is the Municipal Aggregation Plan (“Plan”) for the Medfield Community Electricity Program (“Program” or “MCE”) of the Town of Medfield (“Town”), developed consistent with the municipal aggregation statute, G.L. Chapter 164, Section 134.

Through the Program, the Town will provide new electricity supply options to Medfield residents and businesses. The Local Distribution Company, Eversource, will remain responsible for distribution of electricity, maintaining electricity infrastructure and responding to power outages. This Plan does not obligate the Town to pursue aggregation if conditions are not favorable.

The Program enables the Town to select the characteristics of the electricity supply options, also known as products. The Program will be open to all residents and businesses in Town, and it will offer a standard product and optional products. At launch, all Eligible Customers¹ will be automatically enrolled in the Program’s standard product unless they exercise their right to opt out or choose an optional product. Once the Program is operational, participating residents and businesses would retain the right 1) to change to an optional product or 2) to opt out of the Program with no penalty and to choose any other electricity supplier or stay with the Basic Service supply from the Local Distribution Company. Residents and business that do not initially participate in the program may join the program at any time.

A key focus of the Program will be to provide electricity options that match the diverse needs of our community, which include:

- Using and supporting the growth of renewable electricity.
- Access to stable and advantageous prices, including demonstrating that environmentally responsible action can also result in economic benefit, or can, at least, be accomplished in an economically responsible way. It is important to note that the Program cannot guarantee prices will be lower than the Eversource Basic Service prices at all times, because Basic Service prices change frequently and future prices are unknown.
- Supporting electrification, particularly for heating and transportation currently powered by fossil fuels.

The Town of Medfield will develop and implement the Program (“Program”) as described in this Plan. Before being implemented, the Plan must be reviewed and approved by the Massachusetts Department of Public Utilities (the “Department”). The Department will ensure that the Program

¹ Eligible Customers shall include consumers of electricity located within the geographic boundaries of the Town who are (1) Basic Service customers; (2) Basic Service customers who have indicated that they do not want their contact information shared with competitive suppliers for marketing purposes; or (3) customers receiving Basic Service plus an optional green power product that allows concurrent enrollment in either Basic Service or competitive supply. The following customers shall be excluded as Eligible Customers: (1) Basic Service customers who have asked their electric distribution company to not enroll them in competitive supply; (2) Basic Service customers enrolled in a green power product program that prohibits switching to a competitive supplier; and (3) customers receiving competitive supply service.

satisfies all of the statutory requirements, including that the Plan provides universal access, a reliable power supply and equitable treatment for all customer classes.

II. Process to Develop and Approve Plan

This Plan was created through the following process:

- 1. Passage of authorizing resolution:** The municipal aggregation statute requires that the Town obtain approval from the local governing authorities before initiating the development of the plan. The Town satisfied the local approval requirement when the Town Meeting voted to initiate the process of municipal aggregation on May 17, 2021.
- 2. Signed agreement with Town's aggregation consultant:** Medfield selected Good Energy, L.P. as its aggregation consultant to assist in developing this Plan, managing the supply procurement, developing and implementing the public education plan, interacting with the Local Distribution Company, Eversource, and monitoring the supply contract.
- 3. Creation of a Draft Plan & Public Review:** Medfield prepared a Draft Plan and made it available for citizen review beginning on December 22, 2021. The plan was made accessible electronically on program website and in hard-copy at Town Hall and the library.
- 4. Public hearing on Draft Plan:** Medfield held a public hearing to receive comments from citizens on the Plan on [InsertDate].
- 5. Consultation with Department of Energy Resources & Other Parties:** The aggregation statute also requires that the Town consult with the Department of Energy Resources ("DOER") in developing the plan. The Town submitted a draft of the Plan to DOER, and Medfield municipal officials and their Aggregation Consultant met with DOER to discuss that draft. [InsertDetail].

The Town has also provided an opportunity for input from the Local Distribution Company, Eversource. The Aggregation Consultant provided Eversource with a draft model plan that reflects prior input from the Local Distribution Company and will continue to provide an opportunity for further comment from Eversource on the Plan.

- 6. Local approval of Plan:** The Board of Selectmen approved the Plan on [InsertDate].
- 7. Submission of Final Plan to Department of Public Utilities:** Before being implemented, the Plan must be reviewed and approved by the Massachusetts Department of Public Utilities (the "Department"). The Department will ensure that the Program satisfies all of the statutory requirements, including that the Plan provides universal access, a reliable power supply and equitable treatment for all customer classes.

III. Electricity Supply Product Options

The Program may offer a standard and optional electricity supply products. Eligible Customers are automatically enrolled in the standard product unless they opt-out of the program or choose one of the optional products.

All products will include the minimum amount of renewable electricity as required by any applicable statutory requirements, such as the Renewable Portfolio Standard (“RPS”) required by the Commonwealth. Some products will include additional renewable electricity above the RPS. All purchases of additional renewable electricity in the products will be certified through Renewable Energy Certificates (RECs), the instrument used to trade and track renewable energy generation.²

The products may vary based on the amount of renewable electricity, in the form of RECs, and based on whether the price is time-varying. Time-varying products will require a customer to have metering technology that can record and report when usage occurred.

The choices for renewable electricity may include:

- The same amount of RECs required by the RPS in the Commonwealth
- RECs in an amount that is greater than the Renewable Portfolio Standard (“RPS”) required by the Commonwealth
- Up to 50% RECs
- Up to 100% RECs

The choices for time-varying prices may include:

1. Non time-varying: The same price applies to usage at any time.
2. Time-varying: Multiple time periods, with each time period having a corresponding price at which usage during each period will be billed. Time periods will be limited by the options available through the Local Distribution Company (Eversource) billing system.

Each of the four choices for renewable electricity could be combined with each of the two choices for time-varying prices, producing a total of up to eight products. At launch, the Program may offer up to four electricity supply products, as described below:

Standard Product: The standard product, Medfield Standard, is expected to include RECs in an amount that is 5% to 10% greater than the Renewable Portfolio Standard (“RPS”) required by the Commonwealth, with the exact amount to be determined after the receipt of bids from competitive suppliers. The price will be non-time varying.

² RECs enable the trading and tracking of renewable electricity. For every one megawatt-hour (MWh) of renewable electricity that is generated and fed onto the electricity grid, one REC is created.

Optional Products:

The Program may offer two or more optional products that are non-time varying:

- A product with 50% RECs, called Medfield 50
- A product with 100% RECs, called Medfield 100
- A product with the same amount of RECs required by the RPS in the Commonwealth, called Medfield Basic

If the Medfield 50 or Medfield 100 optional products include RECs in an amount less than 50% or 100% of a customer's metered consumption, respectively, the Municipality will rename the product to appropriately reflect the amount of RECs the product contains.

All RECs for additional renewable electricity above the RPS are expected to qualify as Massachusetts Class I eligible pursuant to 225 CMR 14.00 which includes generation from solar, wind, anaerobic digestion or low-impact hydro located within or delivered to New England.

If and when the Program offers time-varying products, the Town will include such products in its opt-out notice ("Consumer Notification Letter") and will file a copy with the Department at least 14 calendar days before issuance.

Any new products the Town seeks to make available to Program participants, in addition to the products described in the Plan, will be subject to Department approval.

IV. Plan Elements

IV.a. Organizational Structure

The organizational structure of Program will be as follows:

Board of Selectmen: The Plan will be approved by the Board of Selectmen, the elected representatives of the citizens of the Town, and overseen by the Board of Selectmen or designee of the Board of Selectmen. The Board of Selectmen or designee(s) of the Board of Selectmen will be responsible for making decisions and overseeing the administration of the Program with the assistance of the Aggregation Consultant. Prior to the receipt of bids from Competitive Suppliers, the designee(s) of the Board of Selectmen shall be specifically authorized to enter into an Electric Service Agreement ("ESA") under parameters specified by the Board of Selectmen.

Aggregation Consultant: The Aggregation Consultant will manage certain aggregation activities under the direction of the Board of Selectmen or designee of the Board of Selectmen. Their responsibilities will include managing the supply procurement, developing and implementing the public education plan, interacting with the Local Distribution Company, Eversource, and monitoring the supply contract. The Town has selected Good Energy, L.P. to provide these services for an initial term.

Competitive Supplier: The Competitive Supplier will provide power supply for the aggregation, provide customer support including staffing a toll-free number for customer questions, and fulfill other responsibilities as detailed in the ESA. The Competitive Supplier shall be required to enter

into an individual ESA with the Town under terms deemed reasonable and appropriate for the constituents of the Town by the Board of Selectmen.

Buying Group: The Town may elect to join with other municipal aggregators in combining its load for purposes of soliciting bids from Competitive Suppliers. The purpose of the Buying Group is to allow municipal aggregators to capture the benefits of collective purchasing power while retaining full municipal autonomy. The Town shall be represented by the designee(s) of the Board of Selectmen on the executive committee of the Buying Group. The Town, through its designee as specifically authorized by the Board of Selectmen, shall select a Competitive Supplier based on the needs of the Town and shall not be required to select the same terms or Competitive Supplier as other members of the Buying Group.

IV.b. Operations

Following approval by the Department of Public Utilities, the key operational steps will be: 1) Issue a Request for Proposals (RFP) for power supply and select a Competitive Supplier; 2) Implement a public information program, including the opt-out documents, and 3) Enroll customers and provide service, including quarterly notifications and 4) Annual reporting

These steps are described in the sections below.

IV.b.i. Issue an RFP for power supply and select a competitive supplier

The Town, under direction of the Board of Selectmen or its designee, will solicit bids from leading competitive suppliers, including those currently supplying community power programs in New England and other states. In seeking bids from competitive suppliers, the Town may solicit bids for its load individually or as part of a Buying Group with other municipal aggregators. The RFP will require that the supplier satisfy key threshold criteria, including:

- Licensed by the Department
- Strong financial background
- Experience serving the Massachusetts competitive market or municipal aggregation programs in other states
- Demonstrated ability, supported by references, to provide strong customer service.

In addition, suppliers will be required to agree to the substantive terms and conditions of the ESA, including, for example, the requirement to:

- Provide all-requirements power supply at a specified price
- Allow customers to exit the program at any time with no charge
- Agree to specified customer service standards
- Comply with all requirements of the Department and Eversource, the Local Distribution Company

The Town will solicit price bids from suppliers that meet the threshold criteria and agree to the terms and conditions of the ESA. The Town will request bids for a variety of term lengths (e.g. 12, 24, 36 or 48 months) and for power and RECs from different sources.

The Board of Selectmen, or their designee(s), will determine the appropriate amount of RECs to be included with the standard product and the optional products based upon their assessment of market conditions and what would be in the best interest of retail electric customers at the time of the solicitation. The Town will require bidders to identify the technology, vintage, and location of the renewable energy generators that are the sources of the RECs. It will also require that the RECs be created and recorded in the New England Power Pool Generation Information System. The Town may seek bids from a variety of renewable energy sources; and will choose the best combination of environmental benefits and price.

Prior to delivery of the bids, the Board of Selectmen shall provide authorization to its designee(s) to select a bid and enter into an ESA based upon parameters the Board of Selectmen deems appropriate for its constituents. In consultation with its Aggregation Consultant, the designee(s) of the Town, will evaluate the bid results including price, term and source.

Whether the Town conducts an individual solicitation or participates in a solicitation with a Buying Group, at the conclusion of the bidding process it will select a price, term and supplier appropriate for its retail electric customers. Participation in the Buying Group shall not require the Town to select the same price, terms or supplier as other members of the Buying Group. If none of the bids is satisfactory, the Town will reject all bids and repeat the solicitation for bids as often as needed until market conditions yield a price that is acceptable. The Town will only accept a bid that enables it to launch the Program with a price, terms and characteristics that meet the criteria set by its municipal officials. The Town will only enter into an ESA with a supplier that is fully consistent with the Aggregation Plan as approved by the Department.

IV.b.ii. Implement public education program including opt-out documents

Once a winning supplier is selected, the Town will implement a public education program. A public education plan is required to fully inform and educate potential customers and participants in advance of automatic enrollment in the Program, to raise awareness and provide retail electric customers with information concerning their opportunities, options and rights for participation in the Program.

The Town will develop a detailed timeline for the public education plan as the launch gets closer, and the public education plan for the launch will include both broad-based efforts aimed at promoting awareness of the program across the entire community and opt-out documents (“Consumer Notification Documents”) mailed to every Eligible Customer.

- **Broad-based efforts:** The broad-based efforts will take advantage of traditional media, online media, and events to ensure as many people as possible learn about the aggregation. See **Attachment A** for detail on the broad-based efforts and an initial timeline and exemplar marketing materials.

- **Consumer Notification Documents:** Consumer Notification Documents (also known as opt-out documents) will be mailed to every Eligible Customer. The Consumer Notification Documents will have the appearance of an official communication of the Town, and it will be sent in an envelope clearly marked as containing time-sensitive information related to the Program. The Consumer Notification Documents will include an opt-out notice (“Consumer Notification Letter”) that will: (1) introduce and describe the program; (2) inform Eligible Customers of their right to opt out and that they will be automatically enrolled if they do not exercise that right; (3) explain how to opt out; and (4) prominently state all program charges and compare the price and primary terms of Town's competitive supply to the price and terms of the current Basic Service offering provided by the Local Distribution Company, Eversource. The Department-approved notice will indicate that because of market changes and differing terms, the Program cannot guarantee savings compared to Basic Service over the full term of the Program.

The Consumer Notification Documents will also include the Language Access Document, an opt-out reply card, and a postage-paid return envelope. The Language Access Document will contain a message in 26 languages encouraging Eligible Customers to have the notification translated and providing the program website address and toll-free number. Exemplar copies of the Consumer Notification Documents are included in **Attachment B**.

The Consumer Notification Documents will be designed by the Aggregation Consultant and the Town and printed and mailed by the competitive supplier, who will process the opt-out replies. Eligible Customers will have 33 days from the date of mailing the Consumer Notification Documents to return the reply card if they wish to opt out of the Program and the opt-out notice shall identify the return date by which the reply envelope must be mailed and postmarked. The competitive supplier shall allow an additional 3 days from the return date for receipt of the opt-out replies before initiating automatic enrollments in the Program (i.e. 37 days total from mailing before enrollment)

Information about the Program will be made available in multiple languages where appropriate, and the program will seek to ensure that Eligible Customers with disabilities have full access to the Program information and are informed of their rights and obligations under the Program. See **Attachment A** for detail on the Program’s language and accessibility measures.

The Program materials will include required disclosures, including that savings cannot be guaranteed, and notices as described in **Attachment A**.

The Program will limit supplier communications to customers as described in **Attachment A**.

In the event the Town seeks to inform customers currently on competitive supply about the Program, the Town shall: 1) include in any materials a disclosure that such customers may be subject to penalties or early termination fees if they enroll in the Program; and 2) provide the Department with a copy of any materials it proposes to send to competitive supply customers no

later than ten days prior to the proposed date of issuance.

IV.b.iii. Enroll customers and provide service

1. Enroll Customers: After conclusion of the opt-out period (i.e., no sooner than 37 days from the date of the mailing of the Consumer Notification Documents), the competitive supplier will enroll into the Program all Eligible Customers who did not opt out. All enrollments and other transactions between the competitive supplier and the Local Distribution Company, Eversource, will be conducted in compliance with the relevant provisions of Department regulations, Terms and Conditions for Competitive Suppliers, and the protocols of the Massachusetts Electronic Business Transactions Working Group.

2. Provide Service: Once customers are enrolled, the Program will provide all-requirements power supply service. The Program will also provide ongoing customer service, maintain the Program web site, and process new customer enrollments, ongoing opt-outs, opt-back-ins, and customer selections of optional products. Prior to the expiration of the initial ESA, the Town intends to solicit a new power supply agreement.

When new customers open an account in the Town, they will receive a Consumer Notification Letter consistent with Section IV.b.ii. At the end of the opt-out period they will be enrolled in the Program unless they elect to opt-out. New customers may proactively enroll by contacting the Program directly.

As part of its ongoing service, the Town will provide the quarterly disclosure of information required by G.L. c. 164, § 1(F)(6) and 220 C.M.R. § 11.06, the Town requested a waiver from the requirement that the disclosure label be mailed to every customer and sought permission instead to provide the information through alternative means, including press releases, public service announcements on cable television, and postings at municipal offices and on the Program website. The Town expects to make the required disclosures by posting disclosure labels on the Program website on a quarterly basis with notification to customers of the posting through the alternate means described above.

The Department has granted the Town's request for a waiver from the information disclosure requirements, subject to the Town's demonstration in each Annual Report to the Department that its Competitive Supplier has provided the same information to participating customers as effectively as the quarterly mailings required under 220 CMR 11.06(4)(c).

IV.b.iv. Annual Report: On an annual basis, the Town will report to the Department and the DOER on the status of the aggregation program, including the number of customers enrolled and opting-out, kilowatt-hour usage, customer savings, participation in optional products, and such other information as the Department or DOER may request.

IV.c. Funding

All of the costs of the Program will be funded through the supply charges paid by Program participants through the ESA.

The primary cost will be the charges of the Competitive Supplier for the power supply, which will include the cost of any additional RECs above the RPS. These charges will be established through the competitive solicitation for a supplier.

The administrative costs of the Program will be funded through a per kilowatt-hour Commission Fee that will be paid by the Competitive Supplier to the Aggregation Consultant, as specified in the ESA. This Commission Fee will cover the services of the Aggregation Consultant, including developing the Aggregation Plan, managing the supply procurement, developing and implementing the public education plan, providing customer support, interacting with the Local Distribution Company, monitoring the supply contract, and providing ongoing reports. This charge has been set at \$0.001 per kilowatt hour.

In addition, the Town may direct the competitive supplier to include in the supply price an Operational Adder of up to \$0.001 per kilowatt-hour to be payable by the competitive supplier to the Town. Funds collected through the Operational Adder shall be used to support the operational costs of the Program, including, for example, 1) additional REC purchases and related obligations such as escrow accounts and other sureties; 2) other forms of support for local energy projects that create benefits for Program participants; and 3) personnel costs associated with an energy manager one of the responsibilities of which is to assist with the aggregation Program. If the Town chooses to implement the Operational Adder, the Program website and opt-out letter will note that the supply price includes that Adder.

IV.d. Rate Setting and Other Costs to Participants

As described above, the power supply charges of the Program will be set through a competitive bidding process and will include the Commission Fee and applicable taxes pursuant to the ESA and may include the Operational Adder. The inclusion of the Operational Adder and its amount will be determined after the receipt of bids from competitive suppliers. Additionally, power supply charges may include credits or discounts applicable to certain rate classes (for example, from a Low-Income Community Shared Solar program), provided, however, that the credit or discount is applied only to the electric supply portion of the customer bill. Prices, terms, and conditions may differ among customer classes, which classes will be the same as the customer classes of the Local Distribution Company. The frequency of price changes will be determined through the competitive bid process. Prices may change as specified in the winning bid or as the result of the Town entering into an amended or new ESA. Customers will be notified of price changes through media releases and postings on the aggregation web site at least 30 days prior to the effective date of the price change. As more fully detailed in **Attachment A**, the Program website will include a translation function and assistive technologies to ensure communications to residents with limited English proficiency and visual or auditory impairments.

If there is a change in law, due to a Regulatory Event under Article 17 of the ESA or a New Taxes under Articles 1.24, 7.4.4 and 17 of the ESA, that results in a direct, material increase in costs during the term of the ESA, the Town and the competitive supplier will negotiate a potential change in the program price. At least 30 days prior to the implementation of any such change, the Town will notify customers of the change in price by issuing a media release and posting notices on the Town and program websites. The notice shall appear in a prominent location on the Town's website with a link to the aggregation website. The Town shall also notify the Department's Consumer Division prior to implementation of any change in the Program price related to a Regulatory Event or New Taxes. Such notice shall be provided to the Department ten days prior to notifying customers and will include copies of all media releases, postings on the Town and Program websites and any other communications the Town intends to provide to customers regarding the price change.

The Program affects only the electricity supply charges of the customers. Delivery charges will be unchanged and will continue to be charged by the Local Distribution Company in accordance with tariffs approved by the Department. Discounts provided by the Local Distribution Company, including low-income discounts provided to low-income consumers, are not impacted by the Program.

Participants in the aggregation will receive one bill from the Local Distribution Company that includes both the power supply charge of the Competitive Supplier and the delivery charge of the Local Distribution Company. Any applicable taxes will be billed as part of the Program's power supply charge.

IV.e. Method of Entering and Terminating Agreements with Other Entities

The process for entering, modifying, enforcing, and terminating all agreements associated with the Plan will comply with the municipal charter, federal and state law and regulations, and the provisions of the relevant agreement.

The Town plans to use the same process described in **Section IV.b.** of this Plan to solicit bids and enter into any subsequent ESAs with the assistance of its then-current Aggregation Consultant. Customers will be notified of subsequent ESAs through press releases and public notices. The transfer of customers from the existing supplier to the new supplier will be coordinated with the Local Distribution Company using established Electronic Data Interchange (EDI) protocols.

If the Town determines that it requires the services of an Aggregation Consultant after expiration of the existing agreement with Good Energy, it will evaluate opportunities to solicit an aggregation consultant individually or as part of a group of municipalities aggregating the electric load of their respective customers. The Town will solicit proposals for, and evaluate, potential aggregation consultants using a competitive procurement process or alternative procedure which the Town determines to be in the best interest of its customers and consistent with all applicable local, state and federal laws and regulations.

IV.f. Rights and Responsibilities of Program Participants

All participants will have the right to opt out of the Program at any time without charge. They may exercise this right by any of the following: 1) calling the toll-free number of the Competitive Supplier; 2) contacting the Local Distribution Company and asking to be returned to Basic Service; or 3) enrolling with another competitive supplier.

All participants will have available to them the consumer protection provisions of Massachusetts's law and regulations, including the right to question billing and service quality practices. Customers will be able to ask questions of and register complaints with the Town, the Aggregation Consultant, the Competitive Supplier, the Local Distribution Company and the Department. As appropriate, the Town and the Aggregation Consultant will direct customer complaints to the Competitive Supplier, the Local Distribution Company or the Department.

Participants will continue to be responsible for paying their bills and for providing access to metering and other equipment necessary to carry out Local Distribution Company operations. Participants are responsible for requesting any exemption from the collection of any applicable taxes and must provide appropriate documentation of such exemption to the Competitive Supplier.

IV.g. Extensions or Termination of Program

At least 90 days prior to the end of the term of the initial ESA, the Town will solicit bids for a new supply agreement and plans to continue the program with the same or new competitive supplier.

Although the Town is not contemplating a termination date, the program could be terminated upon the termination or expiration of the ESA without any extension, renewal, or negotiation of a subsequent supply contract, or upon the decision of the Board of Selectmen to dissolve the program effective on the end date of the existing ESA. In the event of termination, customers would return to the Basic Service of the Local Distribution Company, unless they choose an alternative competitive supplier. The Town will notify customers of a planned termination of the program through media releases and postings on the Program website.

The Town will notify the Local Distribution Company of the planned termination or extension of the Program. In particular, the Town will provide the Local Distribution Company notice: (1) 90 days prior to a planned termination of the program; (2) 90 days prior to the end of the anticipated term of the ESA; and (3) four business-days after the successful negotiation of a new electric service agreement. The Town will also provide notice to the Director of the Consumer Division of the Department of Public Utilities 90 days prior to a planned termination, which notice shall include copies of all media releases, municipal office and website postings and other communications the Town intends to provide customers regarding the termination of the

Program and the return of participants to Basic Service. In the event of the termination of the Program, it is the responsibility and requirement of the Competitive Supplier to return the customers to Basic Service of the Local Distribution Company in accordance with the then applicable Electronic Data Interchange (“EDI”) rules and procedures.

V. Substantive Requirements

V.a. Universal access

The Plan provides for universal access by guaranteeing that all customer classes will be included in the Program under equitable terms.

All Eligible Customers will have access to the Program. All Eligible Customers will be automatically enrolled in the Program unless they choose to opt out.

When New Eligible Customers move into the Municipality, they will initially be enrolled in Basic Service with the Local Distribution Company. New Eligible Customers will receive an opt-out notice and at the end of the opt-out period they will be enrolled in the Program unless they elect to opt-out.

New Eligible Residential and Small Commercial Customers will be enrolled at the same price as the existing customers. All other commercial and industrial customers (medium to very large) joining the Program after program initiation will be enrolled at a price that reflects market prices at the time of enrollment.

All customers will have the right to opt-out of the Program at any time with no charge. Customers that opt-out will have the right to return to the Program at a price that reflects market prices at the time of their return.

V.b. Equitable treatment of all Customer Classes

The municipal aggregation statute requires “equitable” treatment of all customer classes. The Department has determined that this does not mean that all customers must be treated “equally,” but rather that similarly situated classes be treated “equitably.” In particular, the Department has allowed variations in pricing and terms and conditions among customer classes to account for the disparate characteristics of those classes.

The Program makes four distinctions among groupings of customers. First, the Program will distinguish among customer classes (residential, small, medium and large business) by soliciting separate pricing for each of those classes. The Program will use the same customer classes the Local Distribution Company uses for the Basic Service pricing.

Second, the Program will distinguish between customers receiving the standard product and customers that affirmatively choose an optional product. Customers selecting an optional product

will be charged the price associated with that product.

Third, the Program will distinguish between customers that join the Program through an opt-out process and customers that join through an opt-in process. Customers that join through an opt-out process include a) the initial customers and b) new customers that move into the Municipality after the Program start-date.

- a. Eligible Customers that enroll at the Program start will receive the standard Program pricing for their rate class.
- b. For new Eligible Customers moving into the Municipality after the Program start, the Program will distinguish between new residential and small commercial customers, who will receive the standard Program pricing, and all other commercial and industrial customers, who may receive pricing based on market prices at the time the customer joins the Program.

Finally, customers that join by opting in include two types of customers: a) customers that did not become part of the Program initially because they were being served by a competitive supplier but then later join the Program; and b) customers re-joining the Program after having previously opted out.

- a. Opt-in customers that were being served by a competitive supplier at Program initiation but who later join the Program will be treated the same as new customers – residential and small commercial customers will receive the standard Program pricing and all other commercial and industrial customers may pay a price based on the then-current market rates.
- b. Opt-in customers that join the Program after having previously opted out may be offered a price based on then-current market rates rather than the standard Program price. This distinction is designed to limit any incentive for frequent switching back and forth between the Aggregation Program and Basic Service of the Local Distribution Company.

The following is a summary of the enrollment process and pricing by customer class.

Enrollment Process

Enrollment scenario	All Customer Classes
Eligible Customers at program launch	A Customer Notification Letter will be mailed to all Eligible Customers at the launch of the Program initiation. After the completion of the 37-day opt-out period, the competitive supplier will enroll all Eligible Customers who did not opt out in the standard product.
New Eligible Customers identified after program launch	A Customer Notification Letter will be mailed to all identified new Eligible Customers after program launch. After the completion of the 37-day opt-out period, the competitive supplier will enroll all new Eligible Customers who did not opt out in the standard product.
Customers who opted out and later want to enroll	Customers may request enrollment in any Program product by contacting Program customer support or the competitive supplier.
Customers on third party supply at program launch who want to enroll in the program after their supply contract ends	Customers may enroll in any Program product by contacting Program customer support or the competitive supplier.

Pricing Summary

Enrollment scenario	Customer Classes
Eligible Customers at program launch	<i>All Customer Classes</i> Standard contract pricing for all product offers.
Customers who opted out and later want to enroll	<i>All Customer Classes</i> Market-based pricing based on market conditions at the time the customer wants to enroll
New Eligible Customers identified after program launch	<i>Residential and Small C&I,</i> Standard contract pricing for all product offers. <i>Medium, Large & Very Large C&I</i> Market-based price based on market conditions at the time the customer wants to enroll
Customers on third party supply at program launch who want to enroll in the program after their supply contract ends	<i>Residential and Small C&I</i> Standard contract pricing for all product offers. <i>Medium, Large and Very Large C&I</i> Customers may enroll in the program by contacting Program customer support or the competitive supplier.

V.c. Reliability

Reliability has both physical and financial components. The Program will address both through the Electricity Supply Agreement (“ESA”) with the Competitive Supplier. From a physical perspective, the ESA commits the Competitive Supplier to provide all-requirements power supply and to use proper standards of management and operations. The Local Distribution Company will continue to remain responsible for delivery service, including the physical delivery of power to the customer, maintenance of the delivery system, and restoration of power in the event of an outage. From a financial perspective, the ESA requires the Competitive Supplier to pay actual damages for any failure to provide supply at the contracted rate (i.e., to pay the difference between the contract rate and the Local Distribution Company supply rate). The ESA requires the Competitive Supplier to maintain insurance and the Request for Proposals for a Competitive Supplier will require that an investment-grade entity either execute or guarantee the ESA. Accordingly, the Program satisfies the reliability requirement of the statute.

VI. Planned Schedule

The planned schedule below is presented for illustrative purposes. The final schedule will be established once the Program has received all necessary approvals.

Day	Action or Event
1	Issue RFP for Competitive Supplier
31	ESA executed between Town and Competitive Supplier

1. Program Launch

The Town has prepared a preliminary marketing plan and timeline that identifies the steps the Town may take to implement the broad-based public education efforts and send out the opt-out notification (“Consumer Notification Documents”). The schedule is designed to work towards the estimated date when the Consumer Notification Documents are scheduled to arrive in Eligible Customer’s mailboxes.

F. Distribute marketing materials	15	30
G. Customer help line	15	Ongoing
H. Mail postcard to all eligible accounts	5	-
I. Customer notification letter arrives	0	0

1.A Launch Website

Timeframe: At least 120 days before the Consumer Notification Documents arrive

All information regarding the Program will be posted on the Program website. The Town's website will include, in a prominent location, basic information about the Program with a link to the Program website. For the duration of the Program, the Program website will provide access to all Plan documents, as may be updated from time to time, including the approved Aggregation Plan, Education Plan, opt-out documents and education materials. The Program website will have links to the website of the Local Distribution Company, the Massachusetts Department of Energy Resources (DOER), the Massachusetts Department of Public Utilities (DPU), and the Competitive Supplier.

1.B. Update Website

Timeframe: Shortly after signing the ESA (~15 days before the estimated date that the Consumer Notification Documents arrive).

The Program website will be updated to include information on the product options, including pricing, term length, renewable energy, via RECs; as well as enrollment, opt-up and opt-out forms and phone numbers.

1.C. Press Release and Work with Local Media Resources

Timeframe: 15 days before to 30 days after the estimated date that the Consumer Notification Documents arrive.

The Town will develop press releases (**Attachment A-2**) to provide to local media resources, including newspapers and public access TV.

- Area Newspapers: The Town will work with Medfield Hometown Weekly, Patch, Medfield Insider and Medfield02052's Blog to disseminate accurate and timely information about the Program. As part of this targeted outreach to these papers, the Town may seek a meeting with the editorial board to establish a good foundation for continued dialogue over the course of the contract. Other newspaper outlets may include other local publications.
- Local Public Access Television: The Town intends to work with Medfield TV (www.medfield.tv). Town can record interviews about the program and Public Service Announcements for upcoming meetings.
- Municipal Staff Interviews: Develop Q&A Scripts (**Attachment A-4**) and prepare municipal staff or volunteers for interviews.

1.D. Active Social Media Outreach (Attachment A-5)

Timeframe: 15 days before to 30 days after the estimated date that the customer notification letter arrives.

Boost all traditional media coverage on social media platforms, with the goal of driving traffic to the Program website. In concert with the communication leads of the Town, develop a campaign of planned tweets and Facebook posts, timed to coincide with important milestones in order to keep ratepayers informed, particularly those that may not interact with traditional media on a regular basis. Draft content and graphics to accompany the posts, to be made by Town staff. These accounts may include: Town of Medfield website news alerts, Facebook (@TownofMedfield), Twitter (@TownofMedfield) and YouTube (Medfield TV).

Monitor various channels such as Facebook and Instagram for relevant conversations and questions about the Program. Draft responses to comments and questions and utilize social media as a critical tool in engaging with members of the community. These accounts may include: Concerned Citizens of Medfield, Medfield Today and Friends in Medfield.

1.E. Presentations (Attachment A-6)

Timeframe: 15 days before to 30 days after the estimated date that the Consumer Notification Documents arrive.

- Local Groups: Connect with local groups and associations to see if representatives of the Town can participate in an upcoming meeting or offer to host a dedicated event. Seek their assistance in identifying how to best connect with customers with limited-English capabilities or disabilities that may prevent them from accessing Program information. Some of the Community-based groups identified to date which the Town may choose to work with include: Medfield Environment Action and Sustainable Medfield, Parent-Teacher Organizations (MedfieldK8PTO.com and Medfield High School).

Reaching the business community will be important. Presenting to MEMO (Medfield Employers & Merchants Organization) can start this dialogue and lead to additional outreach to and connection with businesses.

- Board of Selectmen Meetings: Present or provide materials for the Board of Selectmen meetings and any constituent meetings they may have.

1.F. Distribute marketing materials (Attachment A-7)

Timeframe: 15 days before to 30 days after the estimated date that the Consumer Notification Documents arrive.

Many groups may have a natural interest in promoting awareness about the Program and can be provided with electronic and hard-copy materials with reference information for the Program.

Distribute to key locations such as Municipal offices, Public Library and the Center at Medfield.

1.G. Customer Help Line

Timeframe: At least 15 days before the estimated date that the customer notification letter arrives and ongoing thereafter.

Establish customer helplines with the Competitive Supplier and Aggregation Consultant to answer customer inquiries.

1.H. Mail Postcard to all eligible accounts (Attachment A-8)

Timeframe: 5 days before the estimated date that the customer notification letter arrives.

A postcard with municipal branding establishes that there is a community-sponsored Program and increases the likelihood that recipient engages with the more detailed Consumer Notification Documents.

1.I. Customer Notification Documents arrive (Exhibit 1, Attachment B)

2. Ongoing Outreach and Education

The Town intends to continue outreach and education for consumers after enrollment in the aggregation program, particularly with respect to changes in offerings and prices, which will be posted on the Program website that is linked to the website of the Town. The types of information the Town expects to communicate through the continuing education efforts include: revisions to programs and prices; responses to frequently asked questions; Program goals and performance; rights and procedures for Program participants; contact information for consumer inquiries and details regarding the Program's electric supply and renewable attributes. In addition to the websites, outreach and education may also be provided through: bilingual public service announcements; bilingual interviews with local media outlets; bilingual news releases in local media; notices in newspapers; public postings in municipal offices and other public buildings (i.e. library, Senior Center, etc.) where residents may meet for municipal events; presentations to municipal officials and interested community groups; and information disclosure labels posted quarterly on the Program website.

2.1 Quarterly Information Disclosure

As part of its ongoing service, the Town will provide the quarterly disclosure information required by G.L. c. 164, § 1(F)(6) and 220 C.M.R. § 11.06. The Town requested a waiver from

the requirement that the disclosure label be mailed to every customer and sought permission instead to provide the information through alternative means, including press releases, postings at municipal offices or postings on the Program website. The Town expects to make the required disclosures by posting disclosure labels on the Program website on a quarterly basis with notification to customers of the posting through the alternate means described above. The Department has granted the Town’s request for a waiver from the information disclosure requirements, subject to the Town’s demonstration in each Annual Report to the Department that its Competitive Supplier has provided the same information to participating consumers as effectively as the quarterly mailings required under 220 CMR 11.06(4)(c).

3. Approach to Overall Education & Outreach

3.2 Required Disclosures & Notices

Savings Not Guaranteed - Any Program materials which include the Town's goals of lower cost power or cost savings, or which reference price savings, price stability, economic benefits or a like term, will also include in each instance a disclaimer that the Town cannot guarantee that the Aggregation Program will provide customers with prices lower than the local distribution company's Basic Service rate that may be in effect at any point of time during the term of any supply contract entered into by the Town.

Automatic Enrollment - All customer education materials (i.e., announcements, slides, scripts presentations and the Customer Notification Letter) will disclose to Eligible Customers that they will be automatically enrolled in the Program unless they exercise their right to opt-out.

Low Income Discounts Not Affected - Program materials will also include a statement, where appropriate, that discounts provided by the Local Distribution Company to low-income consumers are not affected by the Program.

Competitive Supply Customers – To the extent the Town's Program materials seek to inform competitive supply customers about the Program, it will disclose that such customers may be subject to penalties or early termination fees if they switch from competitive supply to the

Program during the term of a contract with the competitive supplier.

Price Change - In the event of a price change, customers will be notified of through media releases and postings on the Town and CEA websites at least 30 days prior to the effective date of the price change.

3.3 Outreach to Persons with Disabilities or Limited English Proficiency

Persons with Disabilities - The Town seeks to ensure that all eligible customers are properly informed about their rights and obligations under the aggregation program including those with disabilities. In addition to the Customer Notification Letter, the Town plans on using the program website and radio advertising as well as posters and handouts to ensure effective communication with all eligible customers. To the extent possible public education events will be held in accessible spaces or, in the alternative, will be available on-line for the mobility impaired. Outreach efforts may be communicated in print and audio formats to provide access to both the hearing and visually impaired.

The program website will include an Americans with Disabilities Act (ADA) commitment statement asking visitors to contact us to help resolve any accessibility issues on an ad hoc basis.

Assistive technologies such as TTY (TeleTYpe) for the hearing impaired will be integrated into the public outreach materials to accommodate individuals with hearing impairments, such as the reference to the TTY number included in the Language Access Document. Price charts on the aggregation websites will use text rich formats and .pdf files, rather than .jpeg and .png images, so that the charts can be read aloud by a computer. Images will also employ alternate text options so that every page on the website can be read out loud by a computer, leveraging assistive technology.

In addition, the program website will use WordPress, which conforms with web content accessibility guidelines and is actively working to make their Content Management System (CMS) ADA compliant.

Persons with Limited English Proficiency - The Town will make reasonable efforts through its Program notifications, customary media outlets and program website to reach and educate all residents about the details of the Program, including those with limited English proficiency. At the launch of the program, the Town will include in its Customer Notification Letter a Language Access Document in the language of limited-English speaking residents. The Language Access Document includes a message in 26 languages encouraging eligible customers to have the notification translated and providing the program website address and toll-free number. The program website will have translation services that can translate the website text and program information into more than 100 languages. The website is the primary vehicle for communicating program information, both before and after the Program launch and any price changes will be

announced through media releases and posted on the website with the translation function.

The Town will also endeavor to work with individuals who need language support as those needs are identified. The Town has identified those residents within the Town that speak English “less than very well” and that speak another language as their primary language, all of which are less than 1%. The percentages are based on a population of approximately 11,962 residents.

Based on this data, the Town intends to make program information available in English. Non-English speaking customers can also access CEA website which includes a translation function that translates materials on the website into over 100 different languages.

3.4 Limitations on Supplier Communications

The Competitive Supplier may only communicate with Program participants and/or use the lists of Eligible Customers and Program participants to send Department-approved educational materials, opt-out notices, or other communications essential to the operation of the Program. Such lists may not be used by the Competitive Supplier to market any additional products or services to Eligible Customers or Program participants.

FOR IMMEDIATE RELEASE

Medfield Community Electricity Program: Launching MONTH 2023 with rate of \$XXX per kWh

Medfield, MA – (DATE) – The Town of Medfield announces that it will launch its electricity program, known as Medfield Community Electricity, on MONTH, 2023. The program is designed to provide more electricity options for residents, businesses and ratepayers in Medfield. The program was approved by Medfield’s Town Meeting in 2021.

“Quote from a town official”

Medfield has initiated and will continue a broad-based education and outreach effort to make residents and businesses aware of the program. The best place to find the most updated information is the aggregation website PROGRAM-WEBSITE.

The program will also offer NUMBER optional products so everyone can find the product that fits best their budget and their climate goals. The Medfield Community Electricity products will be:

Eversource Basic Service Residential Customers	Medfield Standard	Medfield Community Electricity optional products		
		Medfield Basic	Medfield 50	Medfield 100
\$0.XXXXX/kWh	\$0.XXXXX/kWh	\$0.XXXXX/kWh	\$0.XXXXX/kWh	\$0.XXXXX/kWh
Meets renewable energy certificate standards	10% more RECs than renewable energy certificate standards	Meets renewable energy certificate standards	50% more RECs than renewable energy certificate standards	Includes RECs equal to 100% percent of energy consumption
Duration Month Year – Month Year	Duration: MONTH 2021 - Month Year Disclaimer: Savings cannot be guaranteed as compared to Basic Service rates which change every six months for residential and commercial accounts and every three months for industrial accounts.			

Around MONTH, residents and businesses who have not previously chosen an electricity supplier and continue to receive Eversource Basic Service supply, will receive a Customer Notification Letter from the Program’s electricity supplier, SUPPLIER_NAME, on behalf of the Town. It will provide detailed program information and instructions on how to choose an optional Medfield Community Electricity product or how to opt out of Medfield Community Electricity. By default, customers who receive the letter and make no change to their selection will be enrolled in the Medfield Standard product. Those customers who do not opt out of the program before the date stated on the letter will be automatically enrolled as of their MONTH 2022 meter read date. Anyone who does not want to participate in Medfield Community Electricity may leave the program (opt out) either before the program begins or at any time during the program without penalty.

Electricity customers who are currently enrolled with a third-party supplier will not receive the Customer Notification Letter and will not be automatically enrolled. These customers can voluntarily join the program

but may be subject to penalties or early termination fees from the third-party supplier if they switch to the electricity aggregation program during the term of their contract.

For more information about the program, go to PROGRAM_WEBSITE or call Supplier_Phone.

Q&A Script

1. I received a Customer Notification Letter in the mail. Please explain what this is.

- Response will:
 - Describes the program and how it operates.
 - Identifies supplier and describes program products
 - Compares Program pricing to Basic Service rates and explains that savings are not guaranteed
 - Explains basic terms and conditions of Program
 - Explains what eligible customers will be automatically enrolled unless they opt out
 - Tells customers how they can access Basic Service information
 - Explains how to opt up to optional products with higher amounts of renewable energy certificates for those who are interested

2. What is energy aggregation?

- Response will
 - State statute allows municipalities to purchase electricity on behalf of their residents
 - Municipal officials contract for an electric supply from the competitive market
 - Eligible customers may elect to not participate in the program by opting out: otherwise, eligible customers are automatically enrolled in the Program

3. Who made the decision for Medfield to take part in the program? What are the benefits?

- Response will describe the town approvals that were made and when, discuss competitive pricing, price stability, consumer protection, and renewable energy certificates. It will emphasize that there is no guarantee of savings.

4. I am constantly receiving letters and phone calls, and people even come to my house to offer me deals on my energy use. How is this program different?

- Response will describe how this program is not associated with those other offers and that no one from the program will ever call you or come to your home unsolicited. We will stress the name of the program, the municipal branding, and program website.

5. Who may participate in the program? How do I sign up? Do I have to sign a contract? Why is this an opt-out program?

- Response will describe the eligibility of all Basic Service customers (residents and businesses) who have not chosen a third party supplier, explain that it is an opt-out program, that the state law that allows this requires that it be an opt-out program and that you do not have to sign any contract. Highlight that you can opt-out before the program begins on MM/DD/YYYY or anytime thereafter without penalty.
- Will also explain how to opt-up to optional products with a higher amount of renewable energy certificates for those that are interested

6. When does the new price/kWh start and how long will that contract last?

- Response will explain the length of contract and the standard product rate, as well as optional rates available. It will also explain the difference between the timing of Basic Service (changes every 3 and 6 months depending on rate class) and that there is no guarantee of savings.

7. What part of my electricity bill will be affected? Will delivery charges increase?

- Response will explain that the bill has two parts, delivery and supply, and that this only affects the supply portion. Delivery charges are not affected by the program. Also explain that utility discount programs and net metering are not affected.

8. Is there a way for me to increase the amount of renewable energy that I am using?

- Response will highlight the optional rates that have more RECs.

9. Can you please explain how I can make a different election to the standard product?

- Response will explain how to opt-up using the website or a phone call to the supplier and how that will take effect on the next meter read.

10. What do I do if I do not want to be a part of the program? How do I get out of the program?

- Response will explain the ability to opt out via the Customer Notification Letter, website and calling the supplier, and that the opt-out will take effect on the next meter read. Opting out will return the customer to utility Basic Service.

11. What happens if I move to a new address in our Town?

- Response will indicate that you will get a new utility account and you will receive a new Customer Notification Letter at your new address. You will be automatically enrolled if you take no action. You can proactively enroll in the aggregation program by using the website or calling the supplier once you have your new utility account.

12. Who do I call if there is a power outage?

- Response will indicate you still call the utility company.

13. How can I learn more about the program?

- Response will refer to program website: PROGRAM_WEBSITE

However, savings compared to Eversource's Basic Service rates cannot be guaranteed.

More Renewable Energy

Medfield Community Electricity's standard and optional products include more renewable energy than required by Massachusetts. This means you can use cleaner electricity and support the growth of renewable energy generation in our region.

Increased Choice and Easy Participation

The program offers different options for electricity supply so that everyone in Medfield can find an option that fits their budget and climate goals.

How It Works

Medfield Community Electricity does not replace Eversource as our electric utility: they continue to deliver electricity, repair outages and manage all billing. The program offers alternatives for the Supply portion of your bill. See the Understanding **Your Bill section on the Eversource's website to see the difference between Supply and Delivery sections.**

The program is open to electricity customers in Medfield – whether they are a resident, a business, a renter or an owner.

Prior to program launch, Medfield will conduct **extensive education and outreach to notify our community.**

The program is structured with voluntary participation and automatic enrollment.

- **Voluntary participation:** customers can leave the program at any time – either before the program starts or during – without penalty.
- **Automatic enrollment for most:** In Medfield, most residential and some business customers are receiving their electricity supply from the Eversource Basic Service. For these customers, the entry into the program is simple and easy. They are given a 30-day period during which they have the opportunity to opt out (i.e. not participate) or choose one of the program's optional products. Those who do not opt out are automatically enrolled in the program.

Each customer eligible for automatic enrollment will receive a Customer Notification Letter in the mail. It will have program details and provide ways to

opt out via prepaid mailer, phone and online form.

- **Opt-in required for some:** Those Medfield residents at ve already chosen an electricity supplier other than Eversource are not automatically enrolled in the program, though they can voluntarily opt in to the program at any time. The Department of Public Utilities advises all customers of third party suppliers to check their contract terms as their supplier may charge them a fee or a penalty to leave before the end of their contract with their supplier.

Solar electricity consumers will not be impacted and will continue to receive all net metering credits while participating in the Program.

Budget Billing and Low Income Delivery Rate customers will continue to receive those benefits while participating in the Program

MCE GOALS

Renewable Energy

MCE’s standard product includes more renewable energy certificates, known as Massachusetts Class I RECs, than required by the Commonwealth. This means you are helping to support the growth of renewable energy in our region. Optional products that include a higher amount of renewable energy certificates are also available and described below.

Electricity Choice

MCE offers different electricity supply choices with different levels of renewable energy certificates to match your budget and climate goals.

Competitive and Stable Prices

All MCE prices are fixed for ## months (Month YEAR through Month YEAR), whereas Eversource Basic Service prices change every six months for Residential and Commercial customers and every three months for Large Commercial and Industrial customers. MCE offers options that are intended to be price competitive with Eversource Basic Service, however, **savings cannot be guaranteed**. This is because Basic Service rates are not known for the entire period of Medfield’s contract and may therefore be above or below MCE rates in any subsequent period.

MCE OPTIONS

Standard Product

- 1 Medfield Standard:** This is the **standard product** that you will be automatically enrolled in if you do nothing. It includes 10% more renewable energy certificates than required by the Commonwealth. This product helps you be a climate leader, while still focusing on competitive prices. The goal for this product is to be equal to, or lower than, average Eversource Basic Service rates over Medfield’s contract term. However, as future Basic Service rates are unknown, **savings cannot be guaranteed**.

Other Products

MCE also offers optional electricity products, each with differing amounts of renewable energy certificates relative to state requirements. To enroll in any of these optional products, you must contact the supplier, Supplier_Name, at (ARE) NUM-BERS or sign up on the aggregation website: WebsiteURL.com.

- 2 Medfield 100:** This is an **optional product**. It includes renewable energy certificates (MA Class I) equal to one hundred percent (100%) of a customer’s electricity consumption. It also meets all renewable energy standards set by the Commonwealth.
- 3 Medfield 50:** This is an **optional product**. It includes fifty percent (50%) more renewable energy certificates (MA Class I) than required by the Commonwealth.
- 4 Medfield Basic:** This is an **optional product**. It includes the minimum amount of renewable energy certificates (MA Class I) required by the Commonwealth.

MA CLASS I RECs

Some optional products contain additional Renewable Energy Certificates (RECs) above that required by MA law. The additional RECs qualify for MA Class I designation from generation located within, or delivered to, New England.

MCE PRICING

	Electricity Supply Product	Renewable Energy Certificates (RECs)	Residential	Small Commercial and Industrial (C&I)	Large Commercial and Industrial (C&I)	Price Period
MCE	Medfield Standard (standard)	10% greater than MA Class I requirements	\$0.XXXXXX/kWh	\$0.XXXXXX/kWh	\$0.XXXXXX/kWh	Month YEAR-Month YEAR Rates apply to service beginning and ending on the days of the month that your meter is read.
	Medfield 50 (optional)	50% greater than MA Class I requirements	\$0.XXXXXX/kWh	\$0.XXXXXX/kWh	\$0.XXXXXX/kWh	
	Medfield 100 (optional)	MA Class I RECs equal to 100% of customer's metered consumption	\$0.XXXXXX/kWh	\$0.XXXXXX/kWh	\$0.XXXXXX/kWh	
	Medfield Basic (optional)	Meets minimum MA Class I requirements	\$0.XXXXXX/kWh	\$0.XXXXXX/kWh	\$0.XXXXXX/kWh	
What You Have Now	Eversource Basic Service	Meets minimum MA Class I requirements	\$0.10753/kWh	\$0.09850/kWh	NEMA \$0.12746/kWh	November 1, 2021 - April 30, 2022 Residential and Commercial* November 1, 2021 - January 31, Year Large C&I*
<p>*No guarantee of savings. Eversource Basic Service rates for electric supply change every six months for Residential and Commercial customers, and every three months for Large Commercial and Industrial customers. Eversource Basic Service rates may be above or below MCE rates for customers during any subsequent period. Program prices could also increase as a result of a change in law that results in a direct material increase in costs during the term of the electric supply contract.</p> <p>Rates indicated above are for Supply Services only. Commission fee for all MCE products is included in above rates. This fee is \$0.001/kWh for the aggregation consultant. Rates also include taxes which are billed as part of the power supply charge.</p>						

MCE PARTICIPATION

To enroll in the MCE Medfield Standard product, you do not need to take any action. To enroll in an optional MCE product, contact the supplier, Supplier_Name, or use the online form at WebsiteURL.com. If you don't wish to participate, mail and postmark the enclosed opt-out card on or before MM/DD/YYYY to avoid automatic enrollment in the MCE program.

Budget Plan or Eligible Low-Income delivery rate consumers will continue to receive those benefits from Eversource.

Solar Electricity Consumers will not be impacted and will continue to receive their net metering credits while participating in the Program.

Exit Terms for Eversource Basic Service: There is no penalty charge for leaving Eversource's Basic Service, however, Large Commercial and Industrial customers may receive a billing adjustment charge or credit.

You can leave the Program any time after you have enrolled, with no early termination fees. If you leave the Program, your account(s) will be returned to Eversource's Basic Service on the next available meter read.

How to access information about Basic Service: visit www.mass.gov/info-details/basic-service-information-and-rates, or call Eversource at (800) 592-2000.

If you are receiving electricity supply from a competitive supplier and believe you have received this opt-out letter in error, you must sign and return the enclosed opt-out card. This will ensure you continue to receive your electricity from that competitive supplier and prevent any possible early termination fees.

Tax-exempt small business customers must provide a copy of their Energy Exemption Certificate directly to Supplier_Name via email at TaxExempt@supplier.com, fax at (800) 555-1212, or mail at Supplier, Attn: Tax Exempt Dept, Supplier Town, State, Zip in order to maintain their tax-exempt status.

WHEREAS, Municipality has developed a Community Electricity Aggregation Program ("Program") to aggregate consumers located within the Municipality and to negotiate competitive rates for the supply of electricity for such consumers;

5.7 COMMUNICATION OF INSERTS AND MESSAGES

Competitive Supplier agrees that if it communicates with Participating Customers directly, and unless prevented for regulatory or other such reasons from doing so, it shall allow the Municipality to include no less than three (3) inserts per year into such communications, provided that the Municipality pays the cost of printing and reproducing such insert and any incremental postage or handling costs the Competitive Supplier may incur as a result of including such insert. Competitive Supplier shall have the right to disapprove such General Communications (that is communications other than those pertaining to the Municipality's demand-side management, energy efficiency programs and technology, and renewable energy programs, if applicable) and suggest revisions if it finds the communication inconsistent with its business interests, factually inaccurate or likely to mislead; provided, however: (i) that the communication shall be deemed approved if the Competitive Supplier fails to respond within seven (7) calendar days after receipt (not including weekends and holidays); and (ii) that no approval shall be necessary for any communication which has been ordered by the Department, the DOER, or any other Governmental Authority to be so communicated. Competitive Supplier may only communicate with Program participants and/or use the lists of Eligible Customers/Program participants to send Department-approved education materials, opt-out notices, other communications essential to the operation of the Program. Such lists may not be used by Competitive Supplier to market any additional products or services to Eligible Customers or Program Participants

5.8 PARTICIPATING CUSTOMER LISTS AND ANNUAL REPORTS

5.8.1 Consumer Lists

To the extent not prohibited by any Governmental Rule or expressly by any Participating Customer(s), the Competitive Supplier shall, upon request of the Municipality, provide a list of the Participating Customers being served by the Competitive Supplier, including such reasonable identifying and aggregate consumption information as the Municipality may also request to the extent such information is available to Competitive Supplier. Competitive Supplier shall provide such Participating Customer lists in an electronic format reasonably acceptable to both Parties and with no more frequency than once a month.

5.8.2 DPU Annual Report

Competitive Supplier acknowledges that the Municipality is required to submit an Annual Report on the Program to the DPU. Competitive Supplier shall assist Municipality in providing data and information to allow Municipality to prepare the Annual Report to be filed with the DPU. Such data and information may include, but not be limited to: a) monthly enrollment statistics by customer class, including customer additions and withdrawals; b) the number and percentage of customers that opted-out of the program in the last calendar year; c) copies of any opt-out notifications and reply cards sent in the last calendar year; d) documentation of Competitive Supplier's compliance with the alternative information disclosure strategy approved in the relevant final order approving the Municipality's aggregation plan; and e) copies of any complaints about the Program received by Competitive Supplier during the last calendar year and a description of the resolution of such complaints.

5.9 COMPLIANCE WITH LAWS

Competitive Supplier shall promptly and fully comply with all existing and future Governmental Rules of all Governmental Authorities having jurisdiction over the activities covered by this ESA.

5.10 CONSENT

Whenever performance of an obligation of any Party hereto requires the consent or approval of any Governmental Authority, such Party shall make Commercially Reasonable efforts to obtain such consent or approval. In the event the Competitive Supplier requests the Municipality's assistance in obtaining such consent or approval and the Municipality anticipates that it will incur costs in fulfilling the Competitive Supplier's request, it shall give

the Competitive Supplier an estimate of such costs. Upon receiving the estimate, Competitive Supplier shall determine whether it will continue to request the Municipality's assistance, and if so, the Competitive Supplier shall reimburse the Municipality for all costs, up to the estimated dollar amount, reasonably incurred by the Municipality in connection with such efforts.

ARTICLE 6 ROLE OF THE MUNICIPALITY

Under this ESA, the Municipality shall not actually receive, take title to, or be liable for the supply or delivery of All-Requirements Power Supply in any manner whatsoever. The Parties specifically agree that the role of the Municipality is established under M.G.L. c. 164, § 134 and includes negotiating the terms and conditions under which All- Requirements Power Supply will be provided by the Competitive Supplier under this ESA. It is the sole obligation of the Competitive Supplier to arrange for delivery of All-Requirements Power Supply to Participating Customers. The Parties agree that Municipality is not a "distribution company", "electric company", "generation company" or "transmission company" within the meaning of M.G.L. c. 164, § 1 as a result of this ESA, unless a court, the Department, or other lawful authority shall adjudicate to the contrary; provided, however, that the Municipality may be considered to be operating a municipal load aggregation plan pursuant to M.G.L. c. 164, § 134. The Competitive Supplier hereby agrees that it will take no action, whether directly or through its Associated Entities, that would make the Municipality liable to any Participating Customer due to any act or failure to act on the part of the Competitive Supplier or its Associated Entities relating to the delivery or supply of All-Requirements Power Supply.

ARTICLE 7 PRICES AND SERVICES; BILLING

7.1 SCHEDULE OF PRICES AND TERMS

Competitive Supplier agrees to provide All-Requirements Power Supply and other related services as expressly set forth herein in accordance with the prices and terms included in Exhibit A to this ESA, which Exhibit is hereby incorporated by reference into this ESA.

7.2 OBLIGATION TO SERVE

As between the Parties, Competitive Supplier has the sole obligation to obtain sources of supply, whether from generating facilities owned or controlled by its affiliates, through bilateral transactions, or the market, as may be necessary to provide All-Requirements Power

Supply for all of the Participating Customers under the Program. Competitive Supplier, except as explicitly limited by the terms included in Exhibit A, shall be obligated to accept all Participating Customers, regardless of their location or energy needs provided such Participating Customers are eligible under the applicable regulations and tariffs of the Local Distributor.

7.3 METERING

The Local Distributor will be responsible for any metering which may be required to bill Participating Customers in accordance with the Local Distributor's Terms and Conditions for Competitive Suppliers.

7.4 TERMS AND CONDITIONS PERTAINING TO INDIVIDUAL ACCOUNT SERVICE

7.4.1 Title

Title to All-Requirements Power Supply will transfer from Competitive Supplier to Participating Customers at the Point of Sale. In accordance with the Local Distributor's Terms and Conditions for Competitive Suppliers, the Competitive Supplier will be responsible for any and all losses incurred on the local network transmission systems and distribution systems, as determined by the Local Distributor.

7.4.2 Billing and Payment

Unless otherwise specified in an Exhibit to this ESA, all billing under this ESA shall be based on the meter readings of each Participating Customer's meter(s) performed by the Local Distributor. Competitive Supplier shall, or shall cause the Local Distributor or any other entity, to prepare and mail bills to Participating Customers monthly. If the Competitive Supplier arranges for the Local Distributor to perform billing services, the Competitive Supplier shall adopt the billing and payment terms offered by the Local Distributor to its Eligible Customers on Basic Service unless the Competitive Supplier and Local Distributor otherwise agree. Any over-charge or under-charge will be accounted for in the next billing period for which actual meter data is available.

7.4.3 Regional and Local Transmission

The prices quoted in Exhibit A do not include current and future charges for distribution service costs collected by the Local Distributor under its distribution service tariff or local transmission costs as may be imposed by the regional power pool, ISO-NE, or individual electric utilities that have FERC transmission tariffs. The Competitive Supplier understands

that these costs will be collected by the Local Distributor. If, in the future, Competitive Supplier becomes responsible for such distribution or transmission costs, Competitive Supplier shall be entitled to collect such costs from Participating Customers to the extent permitted by any Governmental Rules. These costs are "pass through" costs as determined by the appropriate regulatory agencies.

7.4.4 Taxes

All sales, gross receipts, excise or similar taxes imposed with respect to the sale or consumption of All-Requirements Power Supply shall be included on the Participating Customer's bill and shall be remitted to the appropriate taxing authority by Competitive Supplier. Participating Customers shall be responsible for all taxes that are required by law to be imposed upon a purchaser of electricity and are associated with electricity consumption under the ESA. Participating Customers shall be responsible for identifying and requesting any exemption from the collection of any tax by providing appropriate documentation to Competitive Supplier. For avoidance of doubt, Competitive Supplier shall be responsible for all taxes imposed on Competitive Supplier's income.

Competitive Supplier shall include the REC's purchased from the REC Supplier in the All Requirements Power Supply to be provided to the Municipality under the ESA. Competitive Supplier shall include all costs of such RECs in the price for All Requirements Power Supply as provided in Exhibit A of this ESA. In the event REC Supplier defaults under, or terminates, the RPA prior to the termination of this ESA, Competitive Supplier shall procure and provide Replacement RECs for the continuing term of the ESA sufficient to support the

Municipality's opt-out and opt-in programs as described in Exhibit A of the RPA. The prices included in Exhibit A of the ESA shall not be subject to modification because Competitive Supplier is required to provide Replacement RECs.

ARTICLE 9 SERVICE PROTECTIONS FOR RESIDENTIAL CUSTOMERS

The Competitive Supplier shall, on or before _____, provide a written, detailed description of its billing and termination procedures, customer services, confidentiality and related practices and procedures for approval by the Municipality (which approval shall not be unreasonably withheld). If the Participating Customer(s) so permit(s) or to the extent such permission is required by law or the terms of any Department order with respect to this ESA, the Competitive Supplier agrees to provide notice to the Municipality of any consumer complaints received from a Participating Customer, and the Municipality shall have the right, but not the obligation, to participate in resolution of the dispute, to the extent that such complaints relate directly to the Program, and to the extent permitted by Department regulations and other applicable law. The failure to timely submit such written description, or the submission of practices and procedures which materially fail to comply with Department regulations and policies, shall be deemed grounds for termination of this ESA, at the discretion of the Municipality after providing written notice of such failure to the Competitive Supplier and allowing the Competitive Supplier sixty (60) days to cure such failure.

In addition, and in accordance with M.G.L. c. 164, § 1F(2) and 220 CMR 11.05(2)(b)19, in the event of a dispute regarding an invoice or Competitive Supplier's service, whether directly or through its Associated Entities, under this ESA, a Participating Customer may contact the Department, which may refer the dispute to the Massachusetts Office for Dispute Resolution for mediation of such dispute, if the amount in dispute is greater than one hundred dollars (\$100.00) and the subject of the dispute is within the Department's statutory and regulatory authority.

12.2 DISPUTE RESOLUTION

Unless otherwise provided for in this ESA, the dispute resolution procedures of this Article

12.2 shall be the exclusive mechanism to resolve disputes arising under this ESA. The Parties agree to use their respective best efforts to resolve any dispute(s) that may arise regarding this ESA. Any dispute that arises under or with respect to this ESA that cannot be resolved shall in the first instance be the subject of informal negotiations between the Parties involved in the dispute. The period for informal negotiations shall be fourteen (14) days from receipt of the written notice of dispute unless such time is modified by written agreement of the Parties involved in the dispute. In the event that the parties involved in the dispute cannot resolve a dispute by informal negotiations, the Parties may seek judicial enforcement subject to the provisions of this ESA. Notwithstanding the foregoing, injunctive relief may be immediately sought without resorting to the procedure set forth herein to prevent irreparable harm that would be caused by a breach of this ESA.

ARTICLE 13 INDEMNIFICATION

13.1 INDEMNIFICATION BY THE COMPETITIVE SUPPLIER

In addition to any other remedies available to the Municipality at law or equity, and notwithstanding any other provision contained herein, the Competitive Supplier shall indemnify, defend and hold harmless the Municipality ("Indemnified Party") and the Indemnified Party's officials, officers, employees, agents, representatives and independent contractors, from and against any and all costs, claims, liabilities, damages, expenses (including reasonable attorney's fees), causes of action, suits or judgments, incurred by, on behalf of or involving any one of the foregoing parties to the extent arising directly from or in connection with (i) any material breach by Competitive Supplier of its obligations, covenants, representations or warranties contained in this ESA and not resulting from the actions of the ISO, Local Distributor, the Municipality or its employees or agents, or (ii) any action or omission taken or made by the Competitive Supplier or its Associated Entities in connection with Competitive Supplier's performance of this ESA.
